

SAYS U. S. SEEKS AN ASIATIC BASE

Lenine Declares America Trying to Prepare for War With Japan

TREATY STILL IN AIR

Senate Demands 'Agreement' of Ambassadors; State Department Noncommittal

LONDON, Feb. 8.—Russian soviet authorities were told by an American millionaire that the United States wanted Kamchatka as an Asiatic base in case of a war between the United States and Japan, according to an utterance made recently in a speech by Nikolai Lenine, bolshevik premier, concerning the proposed treaty, published in Moscow, a copy of which has been received here.

According to the proposed treaty concerning Kamchatka is part of a scheme to utilize bourgeois capital to accelerate the country's industrial development. Lenine is quoted as having said:

"An American multi-millionaire who has been here spoke frankly about the motives of the treaty, namely, that America desires to have a base in Asia in case of war with Japan. This millionaire said that if we should sell Kamchatka to America he would promise us such enthusiasm on the part of the population of the United States, that the American government will immediately recognize the soviet government in Russia."

SENATE ASKS COPY OF JAP. AGREEMENT

WASHINGTON, Feb. 8.—What course the state department will take on a request of the senate foreign relations committee for a copy of the "agreement" reached between Roland S. Morris, United States ambassador to Japan, and Baron Shidehara, the Japanese ambassador, in their conversations looking to treaty action defining the rights of Japanese nationals in this country, had not been indicated tonight.

The request of the senate committee for the copy "if not incompatible with the public interest," was received at the state department late today, about the time that Baron Shidehara held a conference with Secretary Colby, but no intimation was given of the character of the conference, nor of the probable attitude of the department, in the face of the request.

Secretary Colby merely pointed out that no "agreement" existed, but only a report from Ambassador Morris on his recent informal conversations with the Japanese ambassador concerning the California anti-alien land legislation, which the latter is understood to contend is discriminatory against the Japanese as a race. The report is now being studied by Secretary Colby, at the same time as a similar report from Baron Shidehara is being examined by the foreign office at Tokyo.

The action of the senate committee today was taken in executive session at the instance of Senator Johnson of California, who previously had called upon Secretary Colby to make public the result of Ambassador Morris' discussions. The secretary has refused to accede to the previous demands for publication, and it has been intimated that final action on the subject, involving as it does probably the amendment of existing treaties or the drafting of entirely new agreements, would be left for the Harding administration.

Senator Johnson has attacked the proposed agreement as a violation of his understanding that it would involve a gentleman's agreement, which in practice would not operate to exclude Japanese from this country.

A Home Made Gray Hair Remedy

Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home:

Merely get a box of Orlex powder at any drug store. It costs very little and no extras to buy. Dissolve it in 2 oz. of distilled or rain water and comb it through the hair. Full directions for use and a 100 gold bond come in each box guaranteeing the user that Orlex powder does not contain silver, lead, zinc, sulphur, mercury, or any other products or other derivatives.

It is safe, does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray-haired person look twenty years younger.

Adv.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by using at any drug store a bottle of Sage and Sulphur Compound, you will get a large bottle of this famous old recipe improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.—Adv.

Edison Says People Sleep And Eat Too Much, in Fact Run to Extremes All Along

Latest Photo of Thomas A. Edison.

Continued from page one.

Edison, nobody could operate the other end.

I asked Edison what the most vital problem the world has to solve is. He said: "Generally, labor and capital, so-called."

Phonograph Greatest Invention.

"What has been the most important event in your life?" I asked.

"That crude model of which I thought might possibly give a clue to the possibility of recording and reproducing the human voice. It actually did so on the first test, and my astonishment was profound," he answered.

"What is education?" I asked him.

Edison had no regular schooling to speak of and has attained by methods all his own the vast store of varied knowledge through which he has worked his marvels.

The main essential," Edison answered, "is to have teachers who can explain the reason for and working of things by analogy with things which the scholar already is familiar with, instead of words of which the scholar does not know the meaning."

Personality to the Front.

Personality he puts to the fore here, as in all else.

"To have teachers who can—," is the heart of the answer. His own achievements have been dependent not only upon his own intelligence and methods but upon the co-operation of his associates and employees of whom in his various industries there are now about a million, many thousands of whom are highly trained, and a good method is futile without good personality to work it.

"Right education would train children to right tendencies," Mr. Edison said, talking in his rapid, vigorous, epigrammatic way. "People go in the direction in which they are inclined. They do what they want to do. They will know what they want to know. They generally get what they want and will become what they at bottom want to become. For good achievement and for good health, too, children and a lot of grown up people ought to be trained to resist."

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pale—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15c and 30c.

EXPLAINS DROP IN LIBERTY BONDS

'Free Spenders' Quick to Dispose of Their Bonds

WASHINGTON, Feb. 8.—Most of the buyers of Liberty bonds were patriots and "free spenders." As distinguished from so-called investors, "free spenders" bought up the bonds and used them later as an investment in the future.

RATHER FANTASTICAL, SAYS GEO. M. STRATTON.

BEIRKELEY, Cal., Feb. 8.—Professor George M. Stratton, holder of the department of psychology of the University of California, regards as "rather fantastical" the belief of Thomas Edison that a machine can be constructed to receive communications from the dead.

"While I am free to admit," said Professor Stratton, "that we know a little about the subject that no one can say what is the limit of possibilities in that direction yet, I am inclined to regard as rather fantastical the theory that a machine may be made to carry on communication with the dead."

The department of agriculture urges that farmers take advantage of the winter season to make an actual financial worth. The department will furnish plans for making up these lists.

Why You Must Have Iron to Make Your Body Strong and Your Brain Keen

Alert and Powerful—Value of Spinach and Organic Iron to Help Make Rich Red Blood and Revitalize Wornout Exhausted Nerves

WITH PLENTY OF BLOOD AND IRON, YOUR BRAIN is the most wonderful thing in all creation but without these it is nothing. IRON TAKES OXYGEN from your lungs and carries it to your brain. Without iron your brain gets no oxygen; and without plenty of rich red blood and oxygen your brain becomes dull and heavy. YOUR INTELLECT POOR, your memory fails, YOU DO FOOLISH THINGS, make bad decisions and you really amount to nothing, so far as accomplishing anything of importance is concerned.

Also without iron YOUR BLOOD BECOMES THIN and WATERY and loses its power to change food into living cells and tissue and therefore nothing you eat does you the proper amount of good—you do not get the full strength out of it.

THERE ARE 30,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

When, as a result of iron starvation you get up feeling tired in the morning, when you find yourself nervous, irritable and easily upset; when you can no longer do your day's work, when you are fatigued out at night; when your digestion all goes wrong; or you have pains across the back and your face looks pale and drawn; do not wait until you go all to pieces and collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but eat more spinach and other iron-containing vegetables and take organic iron with them to help enrich your blood and revitalize your exhausted nerves. But be sure that the iron you take is organic iron and not metallic or mineral iron which people usually take.

IRON ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

TONSILINE

Really Does Relieve

SORE THROAT

TONSILINE We think this name a happy one. It almost tells its own story. You at once think of the tonsils. They are the most sensitive part of the throat. Throat troubles generally start with the tonsils, hence the name of our throat remedy—TONSILINE.

THE THROAT is the gateway to the body. The air we breathe, the food we eat, and the water we drink, all pass through it. If this passageway is poisoned or diseased or infected with germs, the entire body soon absorbs the contagion. The slightest ailment of the throat is a danger signal. Think of it and you will realize that this is the commonest kind of common sense.

SORE THROAT Too many people imagine that a sore throat is a little ailment. They think that it is something that comes today and is gone tomorrow. They neglect it. They put it off, thinking every day that it will be better tomorrow. Many a sad mistake has been made in this way. A Sore Throat is never a little ailment.

If every mother could realize the real danger that lurks behind every case of Sore Throat, she wouldn't rest until she had effected a cure every time a child has it. Your family physician will tell you it is a positive fact that every child with Sore Throat is in real danger of contracting Croup, Quinsy, Tonsillitis or Diphtheria and is not removed from that danger until the throat is cured. Sore Throat is a specific and well defined disease. It is the most common throat disease. That is why Tonsiline is specially prepared as a Sore Throat Remedy. That is why nearly all our talks are about Sore Throat and the fact that Tonsiline relieves it.

A Letter From the Superintendent of the Chicago Children's Hospital.

Dear Sir:—Just of late I have had occasion to use Tonsiline in my family for my wife, my daughter and my son. I have found it to be a very reliable remedy for Sore Throat and I believe that if the neck was as twice as long as the head, it would be a very good idea to have a Sore Throat Remedy. We are all highly pleased with the results. We are all highly pleased with the results. We are all highly pleased with the results.

At Lexington St., Chicago, Ill. J. D. KELLEY, Secretary, Pa. G. G. PELLET, Treasurer, Pa.

Tonsiline is Needed Wherever Throats are Sore. 15c and 30c. Hospital Size \$1. All Druggists.

Kills Brother-in-law and Self.

PORT SMITH, Ark., Feb. 8.—Mrs. Jess Simpson, 65 years old, shot and killed her brother-in-law, Frank Nelson, 35 years old, at her home near Huntington, Ark., this morning. Returning from the yard to the house, she told one of her daughters to summon the sheriff and told another to lay out her best clothes. Then she shot and killed herself. "Insanity," was the coroner's verdict.

"Big Tim" Makes Bond.

CHICAGO, Feb. 8.—"Big Tim" Murphy, labor leader, who was taken in custody by federal authorities in connection with the \$100,000 mail robbery at Pullman, Ill., last August, today was released on bonds of \$30,000, and instructed to appear February 16 for a hearing before United States Commissioner Lewis P. Mason.

Guilty!

MISS HURST is famous for unusual common stories about common people, but she never wrote a more unconventional story than "Guilty," which appears in the current number of Cosmopolitan. One of the most discussed questions of the day is the theme of this unusual story, and it is handled by Miss Hurst so frankly and in such a startling manner that you can never forget it! This is the sort of story that makes literature. If you don't read anything else in any other magazine get Cosmopolitan today and read "Guilty."

The Most Daring Story Fannie Hurst Ever Wrote

Do You Believe in Fortune Telling? The Desperation of Loneliness

A pack of cards and an amateur fortune teller brought Corrina Foster and Andy Benson together. Andy may have thought he did the wooing—but—as Dana Gatlin says in "A Dark Man in Her Future"—who knows what goes on in a woman's mind. If you think you understand women, read this story in February Cosmopolitan.

What Do Women Say at the Circus?

A shrieking note sounds from the compressed air of the callopo augmented by the hand, then tumbling and shouting, the clowns come forth, and one of them is trundling a baby carriage with a two year old child in it, his chubby face smeared with clown-white, and, perhaps, squeezed in his arms is a baby lion. Then it is that the remark is sure to come. The remark consists of five words, but every woman says them at the circus, and you will have to read Courtney Ryley Cooper's "The Heir to the Ballyhoo" in February Cosmopolitan to find out just what those words are—and to learn more about circuses than you ever dreamed existed.

Fourteen Great Features

In February Cosmopolitan which you can buy today there are fourteen great features, each written by a world famous author for America's Greatest Magazine. Among the contributors to this issue are Fannie Hurst, Dana Gatlin, Frank R. Adams, Courtney Ryley Cooper, Meredith Nicholson, Edgar A. Guest, Peter B. Kyne, Elinor Glyn, Percival Gibbon, E. Phillips Oppenheim, Lillian Lauferty, Arthur Somers Roche, William MacHarg and P. G. Wodehouse.
